The Student and Exchange Visitor Program (SEVP) Portal is an important tool that lets international students on post-completion optional practical training (OPT) and science, technology, engineering, and mathematics (STEM) OPT meet their legal reporting requirements. In the SEVP Portal (Portal), students in F-1 or M-1 status can:

- Update their physical home address.
- Update their mailing addresses.
- Update their telephone numbers.
- Update employer information.
- Monitor their employment authorization.

The portal shares information with the Student and Exchange Visitor Information System (SEVIS), but does not give students direct access to SEVIS. The portal does not remove the need for a student to work with a designated school official (DSO) at the student’s school.

Only students with approved post-completion OPT or STEM OPT can create Portal accounts. There are four basic steps for creating an account in the SEVP Portal.

| Step 1 | SEVIS | When the status of an OPT request in SEVIS is “Approved” and the OPT is active, SEVIS sends to the SEVP Portal your following OPT-related data:  
- SEVIS ID  
- Email address  
- Name and Date of Birth  
- U.S. address and telephone |

Create a Portal Account

To create your initial SEVP Portal account:

1. If your OPT has been approved and is active, check your email inbox for two email notices. One includes a link to the SEVP Portal registration pages and the other contains a temporary password. You can recognize the email by the sender and subject lines:
   - **Sender**: do-not-reply.SEVP@ice.dhs.gov
   - **Subject line**: Optional Practical Training Approval – the next step. Create an SEVP Portal account

   The only way to get to the portal registration pages is to use the link in the email

   If you do not receive your notification email:
   - Check your spam or junk mail folder.
   - Contact your DSO to confirm that the correct email address is in your SEVIS record.
   - Contact your DSO who can submit a request in SEVIS to have the create an account email sent again.

2. Click the link in the email. The initial Register page in the SEVP Portal registration process opens.
You can only use the link once. The link in the email is good for only 14 days. The day the email was sent counts as the first day the link is valid. If you are unable to start the registration process, ask your DSO to have the notice sent again.

3. Enter your SEVIS ID. You can find your SEVIS ID in the top left corner of your Form I-20, below the words “Department of Homeland Security.” (Refer to the sample Form I-20)

- Be careful. If you enter your SEVIS ID wrong three times, you will be locked out.
- You will receive an error message: “Your account has been locked. Use the “Reset Password” option to unlock it.
- If this does not work, contact your DSO. Your DSO can log in to SEVIS to submit a request to unlock your account.

4. Click Submit. The next Register page opens to create your password.
The page displays your name and email address. The portal does not give you access to SEVIS itself.

5. Enter a password.

The password must meet the criteria on the page.

6. Confirm the password.

7. Click Create Account. The portal opens the Log in page and displays a success message.
The portal will send you an email to confirm you successfully created your account.

**Best Practice:** Bookmark the links in the email for future use:

- SEVP Portal Log In page
- SEVP Portal Help pages on the Study in the States website
Emails from the SEVP Portal

The SEVP Portal will only send emails related to your portal account. The sender of the email is do-not-reply.SEVP@ice.dhs.gov. The following is a list of emails the portal sends to students:

- When confirming your recently created account.
- When your portal password was changed.
- When your account is locked.
- When your email address changes in SEVIS (two emails).
- When your STEM OPT evaluation reporting dates require you to take action.
- When your OPT authorization ends, and you are notified that your account will be closed.

Access to the portal is free. You should not get any emails from the portal asking you for money. The SEVP Portal Email Notices to Students article on the SEVIS Help Hub has the text for every email the portal sends to students.

Manage Employer Information While on Post-Completion OPT

Students authorized for post-completion OPT can add, edit, and delete employer information.

Relationship between Employment and the Student’s Major Area of Study

You are responsible for relating the training opportunity to your program of study. Before you add an employer in the SEVP Portal, be prepared to explain how your job relates to your program of study. Include:

- Job title
- Employer name
- Major area of study
- Whether full time or the average number of hours worked per week
- Description of regular job duties and how they directly relate to the degree that qualified you for OPT. For example:
  - Bachelor's degree in Electrical Engineering: I work full-time as an Electrical Engineer at ABC Corporation, a government contractor. In my job, I analyze client requirements for electrical systems and provide them with cost estimates of such systems. My work requires understanding of electrical circuit theory, which I studied in-depth at the University of ABC.
  - Master's degree in Music: I am working at a hospital playing the harp in patient rooms. I also conduct hands-on, harp beginner workshops for long-term patients. On average, I work at the hospital 35 hours a week. My duties directly utilize the skills and knowledge I acquired from my coursework and degree in music therapy.

1. On your OPT end date to let you know you have six months of portal access left.
2. Five months after your OPT ends to let you know you have 30 days of access left.
3. Six months after your OPT end to let you know your account is closed.

See the SEVP Portal Email Notices to Students article on the SEVIS Help Hub for the text of these emails.
